As a user experience designer and developer, I have a passion for creating intuitive and engaging digital products that solve real-world problems. With experience in both design and development, I have a unique skill set that allows me to take a project from concept to completion.

I have a developer understanding of user-centered design principles, and use a data-driven approach to inform my designs. Whether I'm working on a website, mobile app, or other digital platform, my goal is always to create an enjoyable and seamless user experience.

EXPERIENCE

Bricks&Canvas - Personal Portfolio

www.bricksandcanvas.com

Aug 2 2011- PRESENT

Collaborated with several startups and companies to create comprehensive UI/UX design solutions and bring them to life through development using React.js and a variety of JavaScript frameworks.

I have been involved in the development of various software applications, including logistics applications, mobile dating apps, e-commerce websites, DeFi, Crypto and SaaS solutions.

My expertise in these areas ranges from designing user-friendly interfaces to implementing functionalities that meet the specific needs of each project. Whether it is streamlining logistics processes, facilitating meaningful connections, enabling online sales, or delivering software as a service, I am equipped with the skills and experience to bring my clients' visions to life.

TOOLS USED

- React / NextJS
- Postgres
- Typescript

- **Apollo**
- **Docker**
- **Figma**
- **Adobe Photoshop**
- **Adobe Illustrator**

Nansen.ai - Crypto Analytics company

www.nansen.ai - Full time

Jan 2021 - PRESENT

- Design and development for the marketing side of Nansen.ai. Responsible for marketing related design and development tasks including creating of landing pages, and setting up A/B tests.
- Collaborated with cross-functional teams, including front and backend developers, research teams, and analysts to provide design related aid.
- Developed user flows, wireframes, prototypes, and high-fidelity mockups to communicate design ideas and gather feedback from stakeholders including the dashboard design for NFT tracking and wallet data
- Working closely with engineers to ensure that designs are implemented correctly and meet the needs of the end user.
- Participating in design reviews and critiques to continually improve the quality of designs and the user experience.
- Worked on a Front-End development capacity to help with development tasks including the developing the dashboard news section and alert scheduling component.
- Designed the mobile experience alongside the desktop UI to make sure website responsiveness is achieved across all devices.

- **AngularJS**
- **Docker**
- **Node.js**
- **HTML/CSS/Javascript**
- **Adobe XD / Adobe Photoshop**
- **Optimizely**

AquariumHub - Ecommerce, Aquarium enthusiasts

[Aquariumhub.com](https://aquariumhub.com)

Apr 2021 - Sept 2021

- Designed and developed a fully working Ecommerce Marketplace for aquarium enthusiasts
- Before I came in, AquariumHub was not in a state where the CEO was confident that the website will be able to capture the users that he wanted due to the outdated design and lack of basic web development practices when it was first developed.
- I designed the new user experience that captured the demographic that we were targeting (aquarium enthusiasts) and improving the overall aesthetic of the site.
- Developed the Front-end code for both buyers and sellers, and made the checkout as seamless as possible.
- Designed and developed the mobile version of the site (the website was not usable on mobile devices before I came in).
- Since the workload has been increasing over the next couple of months, I was also responsible to looking for new developers to help with new features of the site.
- Created the outline for the strategy of the social media campaign as well as prepared the templates to be used for other graphical needs and print materials.

TOOLS USED

- **Woocommerce / Wordpress**
- **HTML/CSS/Jquery**
- **Figma/Adobe Photoshop**

Bitcoin.org — Mobile App Design / Web Design

Jun 2021 - Aug 2021

www.bitcoin.org
